

Solomon's Crooked Crown

How to turn your judgments into gold

How many judgments do you make in a day where you badmouth someone in your head? Do you then judge yourself for doing that? We are human and we judge. You can't just tell yourself to stop judging. Why would you when judgments are messages from your soul?

Judith Garten will guide an exploration of how judgments can show you the pain you have been running away from and how your defense against that pain brings you into suffering. We will practice a simple method of how to turn these leaden thoughts into pure gold in order to truly become a leader of your own life.

Judith Garten, M.A., 50/50 Pathwork Helper, portrays crisis as a gift, and change as an opportunity for growth and discovery. Matters of the heart, its devastations and its longings, are Judith's territory. She navigates this sometimes-rocky terrain with laughter, hope, and love.
